

DCI/ICS 83-4316  
4 April 1983

LOGGED

O + MS  
03 APR 1983NOTE FOR: D/ICS  
DD/ICS

FROM: D/PPS

SUBJECT: Management of the Intelligence Community

1. Here is a first cut at our Long-Range Planning Design, together with our proposed draft memo from the DCI to the NFIB/NFIC for your review and comments. The memo contains an additional paragraph for your consideration which explicitly ties planning to programming and budgeting. I am available to discuss the contents of the entire package at any time.

2. The Long-Range Planning Design has been distributed within the ICS and to all members of the Planning Working Group. We have received written response from PBS as well as GDIP, CCP, CIAP, INR, NRP and OSD/USD(P) and the current draft responds to those comments.

3. We are in the process of comparing the DoD/DCI schedule for an ESG(P) meeting and are also collecting the planning methods and schedules of all NFIP agencies which should be available for our briefing of the IC Staff.

4. As in the past, I hope to keep the entire package in draft through its initial presentation to the DCI for his comments as to content and his concern for style. I anticipate several phases in the coordination process before it reaches the DCI; your office followed by simultaneous distribution to the DDCI and the full ICS.
